

ELENA VESELÁ

QA Automation Engineer

Senior · Prague, Czech Republic
elena.vesela@example.com

PROFILE

Senior quality engineering specialist with 9+ years of experience building reliable automation for multi-tenant SaaS platforms. Focused on end-to-end testing, API validation and CI/CD quality gates. Experienced in shaping pragmatic test strategies, improving release confidence and partnering with developers and product teams from discovery through production.

CORE SKILLS

End-to-end test automation · API testing · CI/CD quality gates · Java · Python · JavaScript · Playwright · Selenium · REST Assured · Test strategy · Docker · SQL

EXPERIENCE

CloudHarbor Systems | Senior QA Automation Engineer

05/2022 - Present

- Designed a shared Playwright and API automation framework for a multi-tenant platform, enabling consistent coverage across tenant-specific workflows.
- Introduced CI quality gates for pull requests and release candidates, catching contract and regression issues before production without materially extending pipeline time.
- Partnered with engineering teams on risk-based test planning for billing, permissions and data isolation features.

Tech: Java, Python, Playwright, REST Assured, Jenkins, Docker

NexaGrid Technologies | QA Automation Engineer

02/2019 - 04/2022

- Expanded automated coverage for REST APIs and critical browser journeys across administration, reporting and subscription modules.
- Reworked flaky regression suites with stable fixtures, service-level checks and parallel execution, making nightly results dependable for release decisions.
- Created reusable test data utilities for tenant roles and permissions, reducing manual setup for integration testing.

Tech: Java, Selenium, Python, Postman, Jenkins, PostgreSQL

BrightPath Software | Software Test Engineer

01/2017 - 01/2019

- Automated core customer workflows and maintained exploratory test coverage for a B2B web application.
- Added API checks to the team's regression process and documented defect patterns for developers.

Tech: Java, Selenium, JavaScript, Jira, Git, SQL

EDUCATION

Czech Technical University in Prague

MSc, Software Engineering, Software Engineering · 2015-2017

University of Economics, Prague

BSc, Applied Informatics, Applied Informatics · 2012-2015
