

MAYA CHEN

Backend Engineer

Middle · Austin, United States

maya.chen.backend@example.com

PROFILE

Backend engineer with 6+ years of experience building event-driven services and data pipelines for payments and operational analytics. Strong in Java, Kotlin, Kafka, and PostgreSQL, with practical ownership of API design, data modeling, observability, testing, and reliable production delivery across distributed systems.

CORE SKILLS

Java · Kotlin · SQL · Apache Kafka · PostgreSQL · Distributed systems · Event-driven architecture · Data modeling · Spring Boot · Docker · Kubernetes · Prometheus

EXPERIENCE

LedgerSpring | Backend Engineer

04/2023 - Present

- Designed payment-event services with idempotent consumers and retry handling, improving recovery from transient processor failures.
- Modeled PostgreSQL settlement and reconciliation data, reducing investigation time for operations through clearer lineage and queryable status history.
- Introduced consumer-lag dashboards and runbooks used by the team during production incidents.

Tech: Kotlin, Spring Boot, Kafka, PostgreSQL, Kubernetes, Prometheus

Northstar Commerce | Software Engineer

06/2021 - 03/2023

- Built Kafka-based order and payment pipelines processing peak retail traffic with partition-aware consumers and schema validation.
- Refactored reporting queries and indexes for operational analytics, shortening daily reporting jobs from over an hour to about 20 minutes.
- Partnered with fraud and finance teams to define event contracts and backward-compatible API changes.

Tech: Java, Kafka, PostgreSQL, Spring, Redis, Docker

Brightline Systems | Junior Software Engineer

07/2019 - 05/2021

- Delivered REST services for merchant onboarding and transaction support workflows, with unit and integration test coverage.
- Created scheduled data exports and reconciliation checks that replaced spreadsheet-based handoffs for operations.

Tech: Java, Kotlin, PostgreSQL, RabbitMQ, JUnit, Git

EDUCATION

University of Texas at Dallas

BSc, Computer Science · 2015-2019
