

MAYA CHEN

Platform Engineer

Senior · Toronto, Canada
maya.chen@samplemail.example.com

PROFILE

Senior Platform Engineer with 9+ years of experience building reliable cloud platforms and internal developer tooling for high-growth SaaS teams. Specializes in Kubernetes, infrastructure as code, observability and SRE practices, with a pragmatic approach to reducing operational risk and improving developer delivery. Comfortable partnering across engineering, security and product teams.

CORE SKILLS

Kubernetes platform engineering · Infrastructure as code · Go · Python · TypeScript · AWS · Terraform · Observability and SRE · Prometheus and Grafana · CI/CD · Incident response · Developer platforms

EXPERIENCE

Northstar Metrics | Senior Platform Engineer

04/2023 - Present

- Designed a multi-account Kubernetes platform with standardized cluster add-ons, upgrade workflows and policy controls for 40+ services.
- Built Go-based deployment and service-ownership tooling, reducing the setup time for a new production service from several days to under one day.
- Introduced SLOs, actionable alerts and incident reviews across three product teams, improving on-call focus and shortening recurring incident investigation.

Tech: Go, Kubernetes, AWS, Terraform, Prometheus, Grafana

Relay Commerce | Platform Engineer

02/2020 - 03/2023

- Migrated customer-facing workloads from VM-based deployments to Kubernetes with a staged rollout, autoscaling and documented rollback paths.
- Created reusable Terraform modules and a self-service environment workflow used by 25+ developers for preview and test environments.
- Rolled out centralized logs, metrics and traces with OpenTelemetry, giving teams consistent dashboards and service health signals.

Tech: Python, TypeScript, Kubernetes, Terraform, Argo CD, OpenTelemetry

Brightline Software | Cloud Infrastructure Engineer

06/2017 - 01/2020

- Automated AWS account provisioning, baseline networking and access controls, replacing a manual checklist with repeatable infrastructure code.
- Maintained CI/CD pipelines and production runbooks while participating in a rotating incident response schedule.

Tech: Python, AWS, CloudFormation, Docker, Jenkins, Datadog

EDUCATION

Toronto Metropolitan University

Bachelor of Science, Computer Science · 2013-2017
