

# MAYA KELLEHER

## Security Engineer

Senior · Dublin, Ireland  
maya.kelleher@example.com

### PROFILE

Senior security engineer with 8+ years of experience building detection capability, responding to cloud incidents and automating security operations. Combines hands-on investigation with pragmatic engineering across AWS and Kubernetes environments. Strong in Python, Go and Bash, with a focus on reliable telemetry, actionable alerts, incident readiness and close partnership with infrastructure teams.

### CORE SKILLS

Detection Engineering · Cloud Security · Incident Response · AWS Security · Kubernetes Security · Python · Go · Bash · SIEM & Alert Tuning · Threat Hunting · Infrastructure as Code · Security Automation

### EXPERIENCE

#### Northstar Commerce | Senior Security Engineer

02/2023 - Present

- Designed detections for IAM misuse, suspicious Kubernetes access and data exfiltration, reducing recurring false positives through structured alert reviews.
- Led response to a compromised CI runner, coordinating containment, credential rotation and retrospective threat hunting across cloud audit logs.
- Built Python and Go tooling for evidence collection and temporary access controls, shortening common investigation setup from hours to minutes.

Tech: Python, Go, Bash, AWS, Kubernetes, Terraform

#### HarbourWorks Cloud | Security Engineer

06/2020 - 01/2023

- Implemented cloud detection rules and dashboards covering privilege escalation, exposed storage and anomalous service-account activity.
- Established incident runbooks, tabletop exercises and an on-call workflow used by engineering teams across three product groups.
- Automated security checks in Terraform and CI pipelines, catching risky network and IAM changes before deployment.

Tech: Python, AWS, GCP, Terraform, Falco, Elastic

#### Red Oak Systems | Cybersecurity Analyst

09/2018 - 05/2020

- Investigated phishing, endpoint and cloud access alerts, documenting root cause and containment steps for post-incident review.
- Created Bash and Python enrichment scripts that improved analyst context for identity and network alerts.

Tech: Python, Bash, Splunk, Linux, AWS

### EDUCATION

#### Dublin City University

MSc, Cybersecurity · 2016-2018

#### University of Galway

BSc, Computer Science · 2012-2016

### LANGUAGES

English: native · Irish: B1 · French: A2
